Carrer Objectives

As a passionate and skilled Frontend Developer, seeking a challenging role to apply my expertise in building responsive, user-friendly web applications. Committed to continuous learning and team collaboration to drive excellence in frontend development.

Education

Acharya Institute of Technology, Bangalore

Bachelor of Engineering in Computer Science Engineering

CGPA: 8.3

2022–

2026

Shree Sharadamba P U College, Tumakuru

Percentage: 96%

2022

Shree Vanivilasa Rural High School, Aranakatte

Percentage: 89%

2020

Skills

Programming Languages : Java(DSA, Springboot)

: HTML, CSS, JavaScript(Front-end)

Cloud computing : Basic AWS tools like EC2, Amazon S3, RDS

Computer Fundamentals : Computer Networks, Operating Systems, Object-Oriented Programming, Multithreading and Concurrency

Version Control : Git, GitHub

Projects

Real-Time Chat Application

Developed a responsive real-time chat web application using React for the frontend and Java (Spring Boot) for the backend, enabling 1-to-1 and group messaging with live updates and chat history. Implemented secure user authentication using JWT, with optional integration of AWS Cognito. The backend services were deployed on AWS EC2, while Amazon RDS was

used for storing user and message data, and Amazon S3 handled media uploads. WebSocket integration ensured seamless real-time communication, and the system was built with a strong focus on performance, scalability, and clean code practices.

Certifications

The Fundamentals of : Infosys Springboard
Java Programming
Front-end developer : Certified with HakerRank
AWS Cloud Practitioner : AWS Skill-Board
Essentials

Hobbies and Interests

Interested in extra curriculum activities —NCC cadet, teamwork, leadership
Listening music, Reading devotional books
